

Bosio

Industrial Furnaces

References

BOSIO was established in 1990, and built a strong professional know how for more than 20 years in order to produce custom made furnaces and industrial kilns.

Our expert team is at your service to study, design and manufacture according to the specific needs in a wide range of industries such as: steel industry, automotive industry, oil and gas industry, aerospace, power, energy, rail, marine, mining, shipbuilding and construction equipment.

We propose the best solution for electrical or gas furnaces and we have the possibility to renovate old furnaces including the computerized regulation and control of thermal process.

We believe that innovation, quality, efficiency, reliability, trust and environmental safety are the keys for long term trading relationship.

We established our furnaces worldwide: India, Russia, Austria, France, Ukraine, USA, Saudi Arabia, Germany,...

We produce:

Gas and electrical heated furnaces and kilns

- furnaces and kilns for heat treatment (hardening, tempering, annealing, normalising ...)
 - without protective atmosphere
 - with protective atmosphere
- furnaces and kilns for aluminium industry
- furnaces and kilns for ceramic industry
- drying furnaces
- furnaces and ovens for heat treatment up to 600 °C (with fans)
- temperature holding kilns for liquid aluminium
- kilns and conveyor belt furnaces for glass industry
- laboratory kilns

Industrial washing machines

- chamber vacuum washing machines
- chamber washing machines
- conveyor belt washing machines

Regulation and control of thermal process

Reconstruction of old furnaces

Service and maintenance

Heat Treatment

gas heated bogie hearth furnace - 34 m³ - 1200°C

gas heated bogie hearth furnace - 47 m³ - 1100°C

gas heated bogie hearth furnace - 12 m³ - 1200°C

gas heated furnace - 22 m³ - 950°C

gas heated bogie hearth furnace - 70 m³ - 1200°C

gas heated bogie hearth furnace - 3 m³ - 1100°C

Heat Treatment

gas heated bogie hearth furnaces - 47 m³- 1100°C

electro heated furnace - 56 m³ - 1200°C

gas heated bogie hearth furnaces - 59 m³ - 1200°C

gas heated bogie hearth furnace - 55 m³- 450°C

gas heated bogie hearth furnace – 51 m³ – 1200°C

gas heated bogie hearth furnace -112 m³- 1150°C

gas heated bogie hearth furnace - 12 m³- 300°C

Heat Treatment

manipulator XYZ - 13m - 60 tons

manipulator XYZ - 16m - 20 tons

gas heated chamber furnace - 6m³ - 1300°C

gas heated chamber furnace - 6m³ - 1300°C

Pit Furnaces

electro heated pit furnace - 175 tons - 22 m load height 1100°C

electro heated split type furnace with spray quenching unit

Protective Atmosphere

electro heated pit furnace (controled atmosphere) - 9 m³ - 950°C

electro heated pit furnace (controled atmosphere)

pit furnaces

hanging system

electro heated chamber furnace with rapid cooling (controled atmosphere)

nitriding and annealing

Aluminium Industry

gas heated oven - 15 tons - 250°C

gas heated oven - 12 tons - 250°C

electro cabinets

gas heated furnace - 5 tons - 550°C

gas heated furnace and cooling chamber - 20 m³ - 450°C

Tunnel Furnaces

gas heated tunnel furnace - 12 x 28 m - 250°C

gas heated tunnel furnace

Ceramic Industry

gas heated bogie hearth furnace - 5m³ - 1300°C

gas heated chamber furnace - 6m³ - 1350°C

electro heated chamber dryers - 8m³ - 250°C

Reconstruction & Modernization

reheating gas heated furnace for ingots

burners with rekuperator

reconstructed gas heated tunnel furnace
- 5m x 60m - 1300°C

Washing Machines

vacuum washing machine

conveyor belt washing machine

conveyor belt washing machine

chamber washing machine

chamber washing machine
